NOVO BI BOARD

## Monitoring. Reporting. System Health.

Finally know what's going on!

The NOVO BI Board provides you with **all relevant information** about the amount and processing time of all incoming data and documents in your organisation.
With this extension for NOVO CxP, you gain valuable **process transparency**
and thus a **complete process overview**.

Optimise your business processes and discover previously unused automation potential!
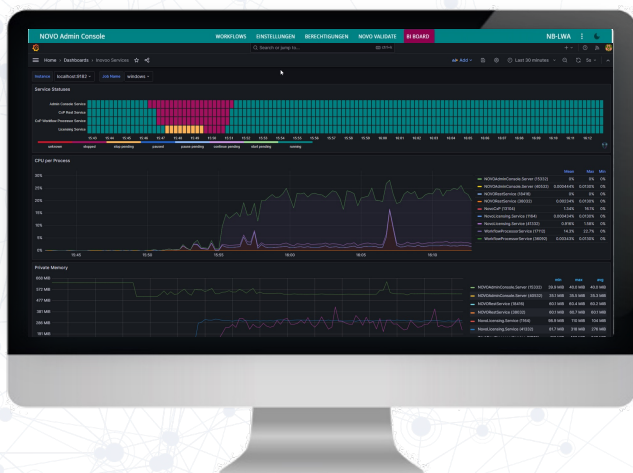

NOVO BI BOARD AT A GLANCE

- Clear benchmarks based on historical and current data

- Extensive analysis & reporting functions

- Transparency of business processes such as customer communication and more

- Quick visualisation of data anomalies and process problems

- More efficient business processes

This lays the foundation for precise monitoring and continuous optimisation of your processes.
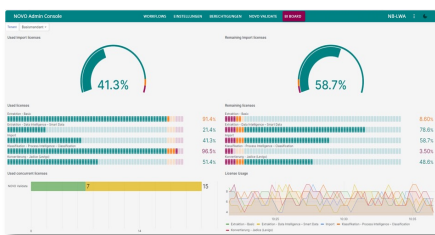

NOVO CXP AND BI – UNBEATABLE AS A TEAM.

As the amount of information coming into organisations every day increases, so does the need for information about processes and their optimisation.

That's why we are taking a step further to optimise your business processes: We have developed the NOVO BI Board.

With this extension, you have process management and performance measurement of the NOVO CxP automation platform under control. Gain valuable **process transparency** and a **complete process overview**.
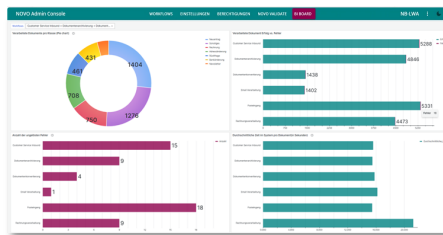

Monitoring	Reporting	System Health
Precise monitoring for continuous process optimisation	**Numerous reporting functions for optimal process transparency**	**All processes under control - for optimal productivity**

Example:
Dashboard for processing duration & quantities, trends and more.

Example:
Dashboard for process KPIs such as processed documents per class and more.
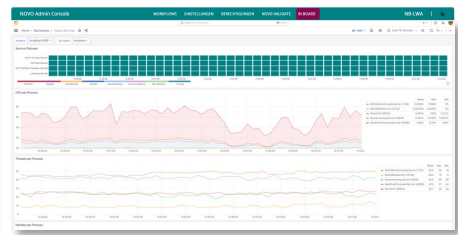

Example:
Dashboard for NOVO CxP services, CPU utilisation and more.

ABOUT US

With our software solutions, we help companies optimize their data-, document- and object-driven processes and make **hyperautomation** and **intelligent document processing** (IDP) possible.

At its core is an easy-to-manage, **low-code platform** that delivers **intelligent process automation** (IPA) and efficient digitization. Business workflows are highly automated through **integrated AI** for content and capture services.

THE RESULT

- Valuable knowledge about company processes
- Transparency of processed data
- Basic information for process analysis
- Optimised operational management without bottlenecks
